

WORDPRESS WEB DEVELOPER

Our midtown Toronto branding and advertising agency is seeking a Front End Developer with strong skills in WordPress and similar themed platforms for frequent freelance and even contract-based projects. Competitive compensation. Respectful and collaborative culture.

POSITION SUMMARY

You're looking for a variety of work to apply your skills in creating websites (and other online assets) on templated platforms such as WordPress. You like the freedom of freelance but may be interested in contract work.

RESPONSIBILITIES

- You'll collaborate with Blade's creative and account service teams to create an effective and satisfying User Experience and Journey and ...
- Design and create wireframes and visual mock-ups of websites;
- Research and select appropriate templates with themes and plug-ins;
- Fully test and upload your finished work and
- Perform troubleshooting, maintenance while staying on top of updates.

QUALIFICATIONS

- Minimum of 5 years experience in a Digital Ad Agency or similar web development environment with a portfolio that showcases your work.
- PROVIDE A LINK TO YOUR WEBSITE PORTFOLIO. Applications without this link will not be considered.
- PLEASE highlight a particular project you've completed and tell us something about it.
- Highly skilled in WordPress, confident in using a text editor, and working experience with using HTML, HTML5, CSS, PHP, JavaScript, and MySQL.
- Ability to create HTML5 ads with video or animation would be an asset.
- Experience developing and building responsive websites and email newsletters.
- Agile in accessing web code to revise existing websites.
- Collaboration and teamwork skills are important.
